# KOALA project
# KidsWords and OZI vocabularies compared
# Thomas Klee
# Created: 2019-10-28
# Revised: 2019-10-29
# This script combines data from two sources
# and compares CDI word item from KidsWords and OZI.
# Note that only the vocabulary sections are compared.
# The two CDIs have other differences as well (e.g. grammar sections).

There are minor differences in the way word forms are represented # in the authors' original data files (e.g. OZI: baa baa, NZ: baa_baa; # OZI: all gone; NZ: allgone). I haven't cleaned these up although it # could be done if more accurate comparisons were needed.
